at **ELENEX
THAILAND 95**

Over twelve Australian companies including Southeastern Renewable Energy, Transfield, Pioneer Airconditioning and Wilson Transformer will participate in the Elenex Thailand 95, the 5th International electrical and electronic engineering, power generation, distribution and supply exhibition at the Queen Sirikit National Conventional Centre in Bangkok from 4-7 October 1995.

Australia's capabilities in areas such as lighting, surge protection equipment, cables and cable accessories, load banks, heating elements, switchgear and motor control centres, electrical systems, equipment and accessories will be on display at the Australian National Stand at the Elenex Thailand 95. Australian companies who are participating will be seeking agents, looking for joint venture partners and exploring the possibility for entering into manufacture under license arrangements.

Austrade, Bangkok will prepare an exhibition brochure for mailing in advance to Bangkok business communities and interested parties with an invitation to view what Australia has to offer.
